## EDUCATION

**Fullstack Academy**, Chicago  
JavaScript  
July 2018 - October 2018

**Purdue University**, West Lafayette  
BA in Fine Arts  
August 2007 - May 2012

**The Yamasa Institute**, Japan  
Japanese  
April 2008 - May 2009

## PROJECTS

### Wirehead - Chrome Extension

<https://wirehead-extension.github.io/>

An extension that encourages productivity by tracking your browsing behavior, showing you your time wasted, and allowing you to limit your time spent on certain sites such as social media.

Personal Contribution: I built the dashboard in React and Redux, used D3JS for data visualization, and used AnimeJS for attractive animations.

### From Beyond - Blogging Site

A personal blog for publishing articles on programming and art.

Personal Contribution: I used React and Redux for the front end, Express, Node, and Sequelize for the back end. I also used threeJS and AnimeJS for front-end animations and 3d renderings.

### Maskot - E-Commerce App

<https://github.com/silvertigers/maskot>

An E-Commerce app that allows users to log in with Google auth, create carts, and check out.

Personal Contribution: Products list page, filterable by category and search. I created the feature to allow users to view their previous orders.

July 2017 - October 2017

### Fat Rice -

Host

- Made customers feel welcome
- Managed the floorplan

October 2016 - February 2017

### Guaranteed Rate -

Post Closing Specialist

- Checked 40 loans a day
- Volunteered for extra team duties

January 2015 - August 2016

### Fishers Public Library -

Circulation Page

- Made sure everyone found the book they wanted.
- Took pride in keeping the library well organized

## LANGUAGES

English, Japanese
